

Akbope

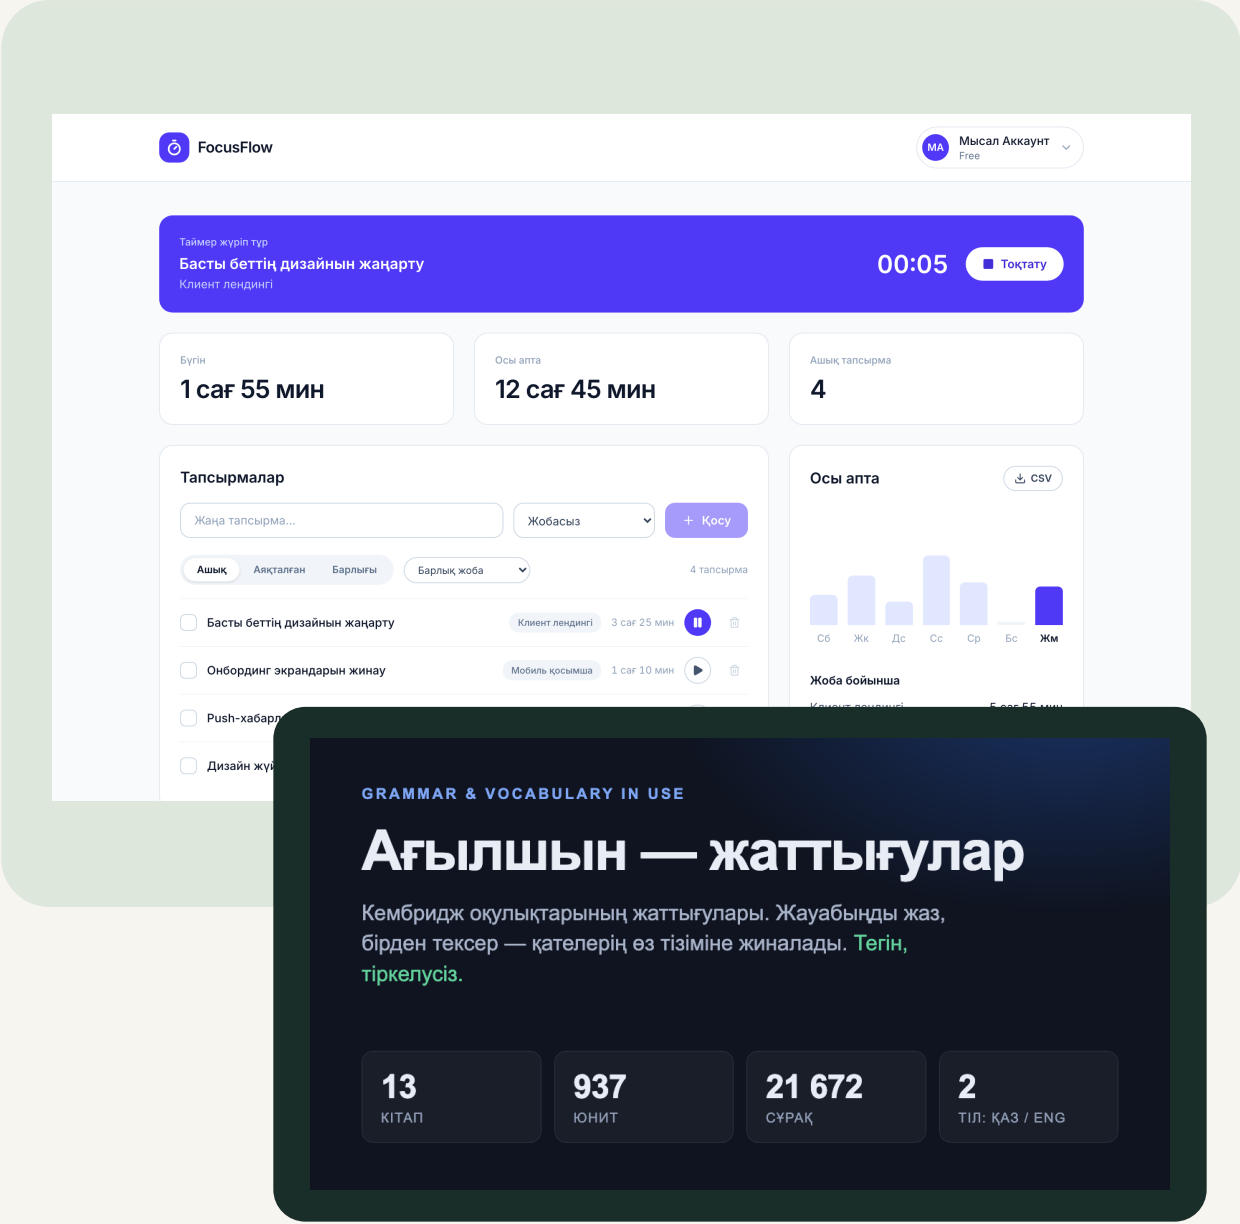

Bakytgeldy

Thoughtful interfaces.
Working products.

I take ideas from user flows and interface design
to frontend, APIs, databases and testing.

ASTANA, KAZAKHSTAN / AITU SENIOR YEAR

Focus10

Make working hours mean something.

A task and time-tracking product for freelancers, connecting daily work to projects, weekly reports and exportable records.

MY ROLE

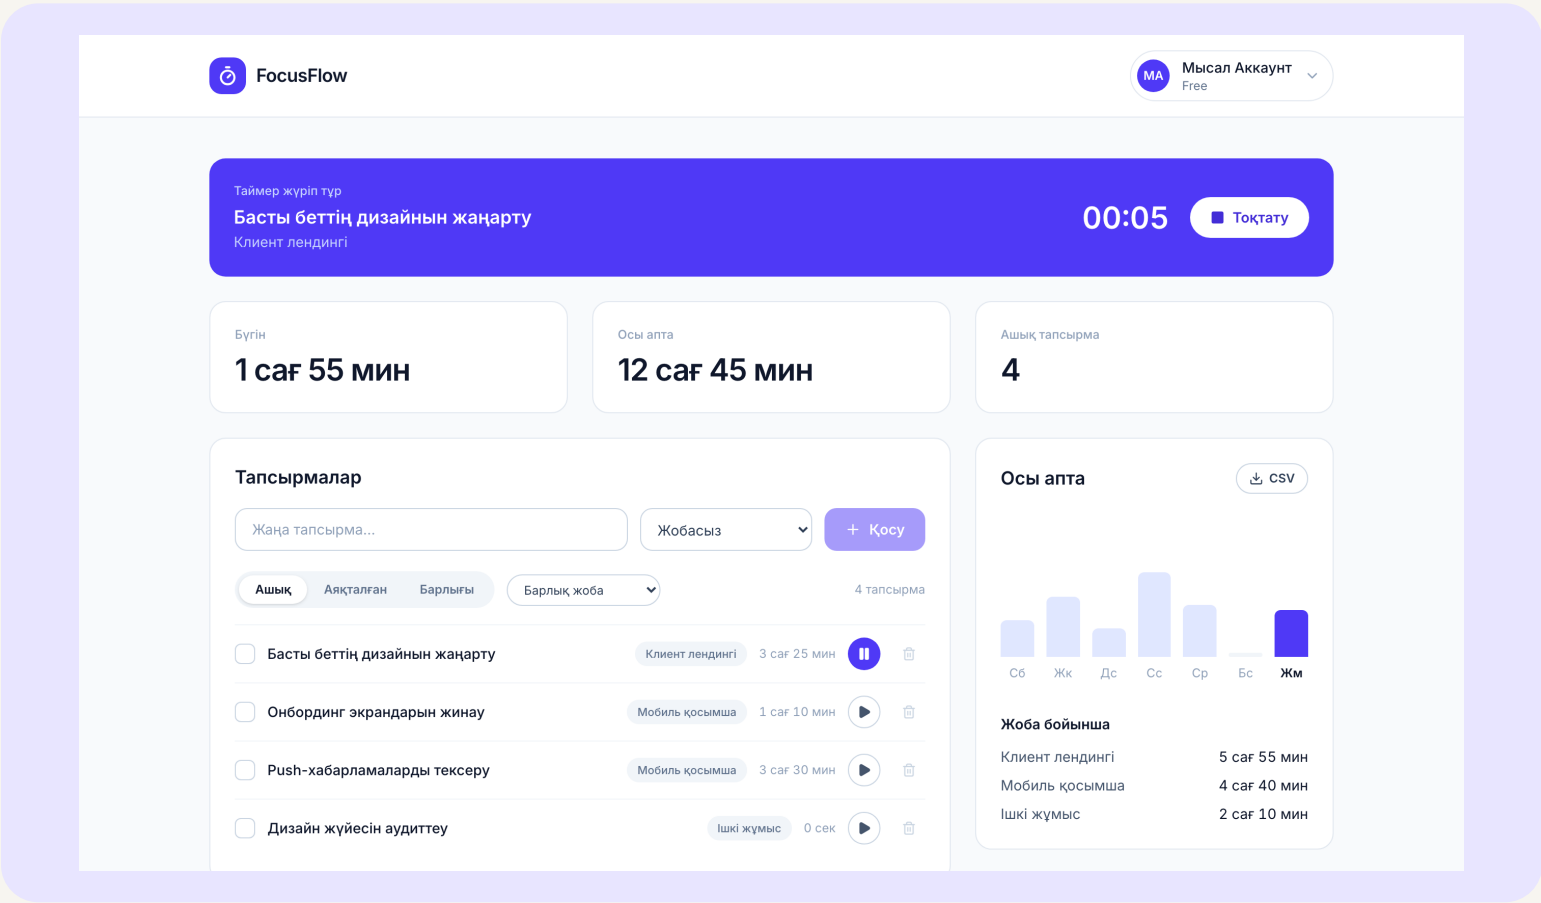

Product definition, UX/UI and full-stack development

Try before signup

A private 30-day guest workspace makes the whole workflow available before registration.

Protect the data

PostgreSQL constraints and serialized timer starts keep concurrent sessions consistent.

SYSTEM / SCOPE

React / Express / PostgreSQL / Authentication / CSV export

Working product with guest-to-account conversion, weekly reporting and 127 documented automated tests.

Agylishyn

*Practice. Understand.
Come back stronger.*

A bilingual learning system that connects coursebook exercises, hints, answer checking and mistake review.

MY ROLE

Learning-system design, UX, content engineering and development

One learning loop

Different books share a consistent practice, feedback and progress model.

Support before answers

Progressive hints help learners understand the structure before revealing a solution.

GRAMMAR & VOCABULARY IN USE

АҒЫЛШЫН — жаттығулар

Кембридж оқулықтарының жаттығулары. Жауабыңды жаз, бірден тексер — қателерің өз тізіміне жиналады. **Тегін, тіркелусіз.**

ТІЛ: ҚАЗ / ENG

SYSTEM / SCOPE

Browser-first PWA / Structured content / Local progress / Offline support

13 books and 937 units or sections, with mistake practice, spaced repetition and teacher workflows.

[Open project /](#)

Mountain

*Keep the context.
Keep reading.*

A private English reader with contextual Kazakh translation and vocabulary review attached to the original passage.

MY ROLE

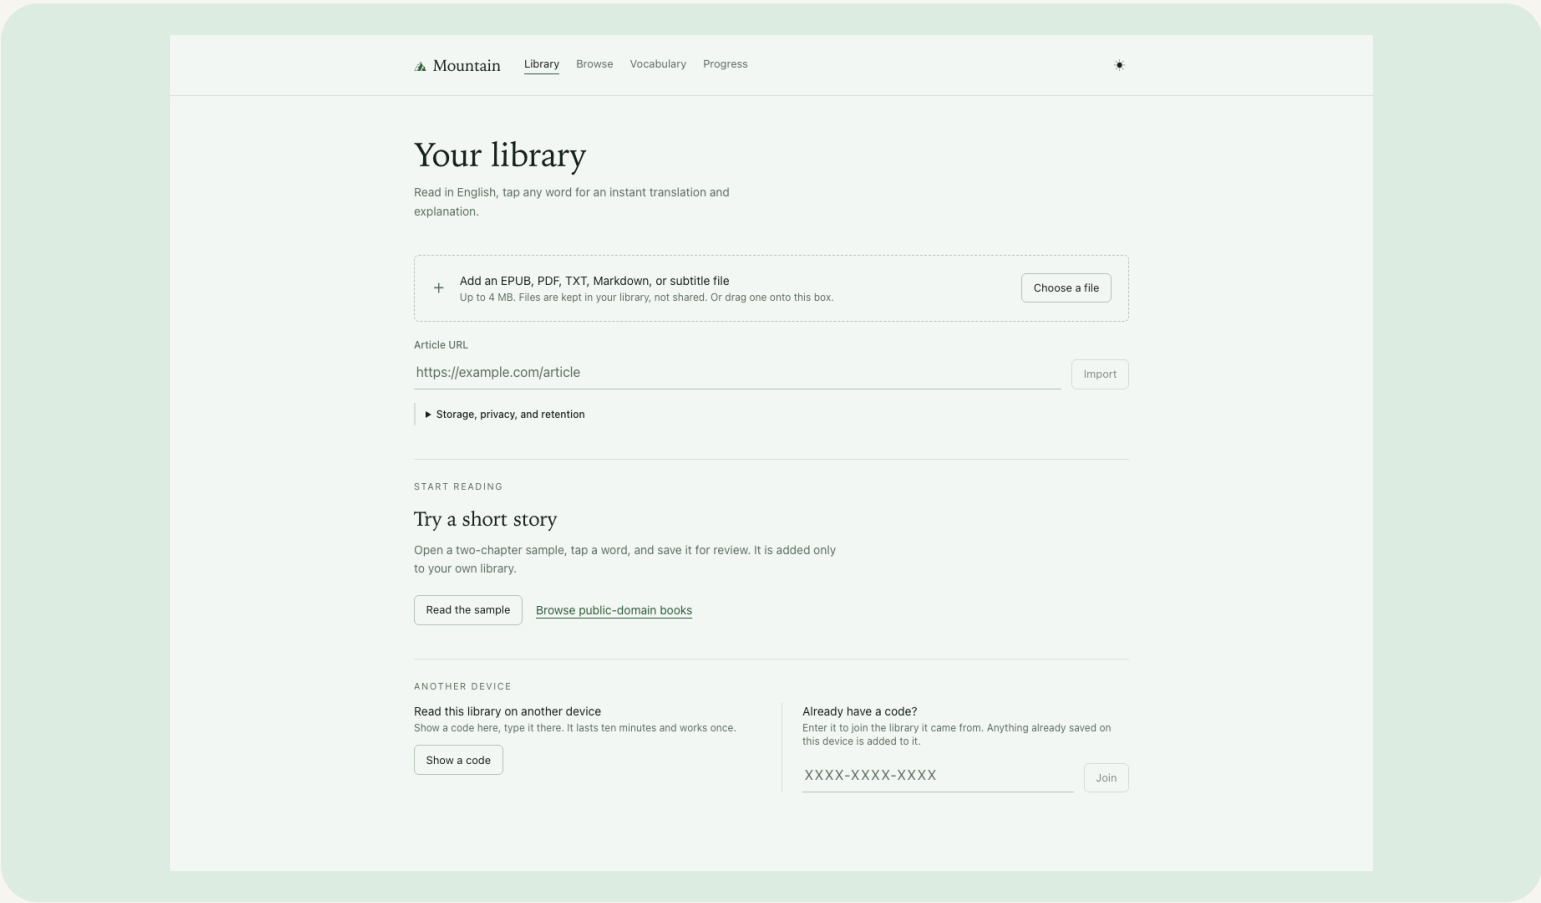

Product design and full-stack development

Reading stays central

Word lookup sits beside the passage, keeping the learner in the reading flow.

Bring your own material

Books, articles and subtitles enter one connected private library.

SYSTEM / SCOPE

Multi-format import / Translation / Vocabulary / Search / Device linking

Working reading environment with EPUB, PDF, text, article and subtitle workflows; ongoing testing.

[Open project /](#)

Akanki

Turn study material into a habit.

A free flashcard and quiz app for creating decks, importing materials and returning to spaced review.

MY ROLE

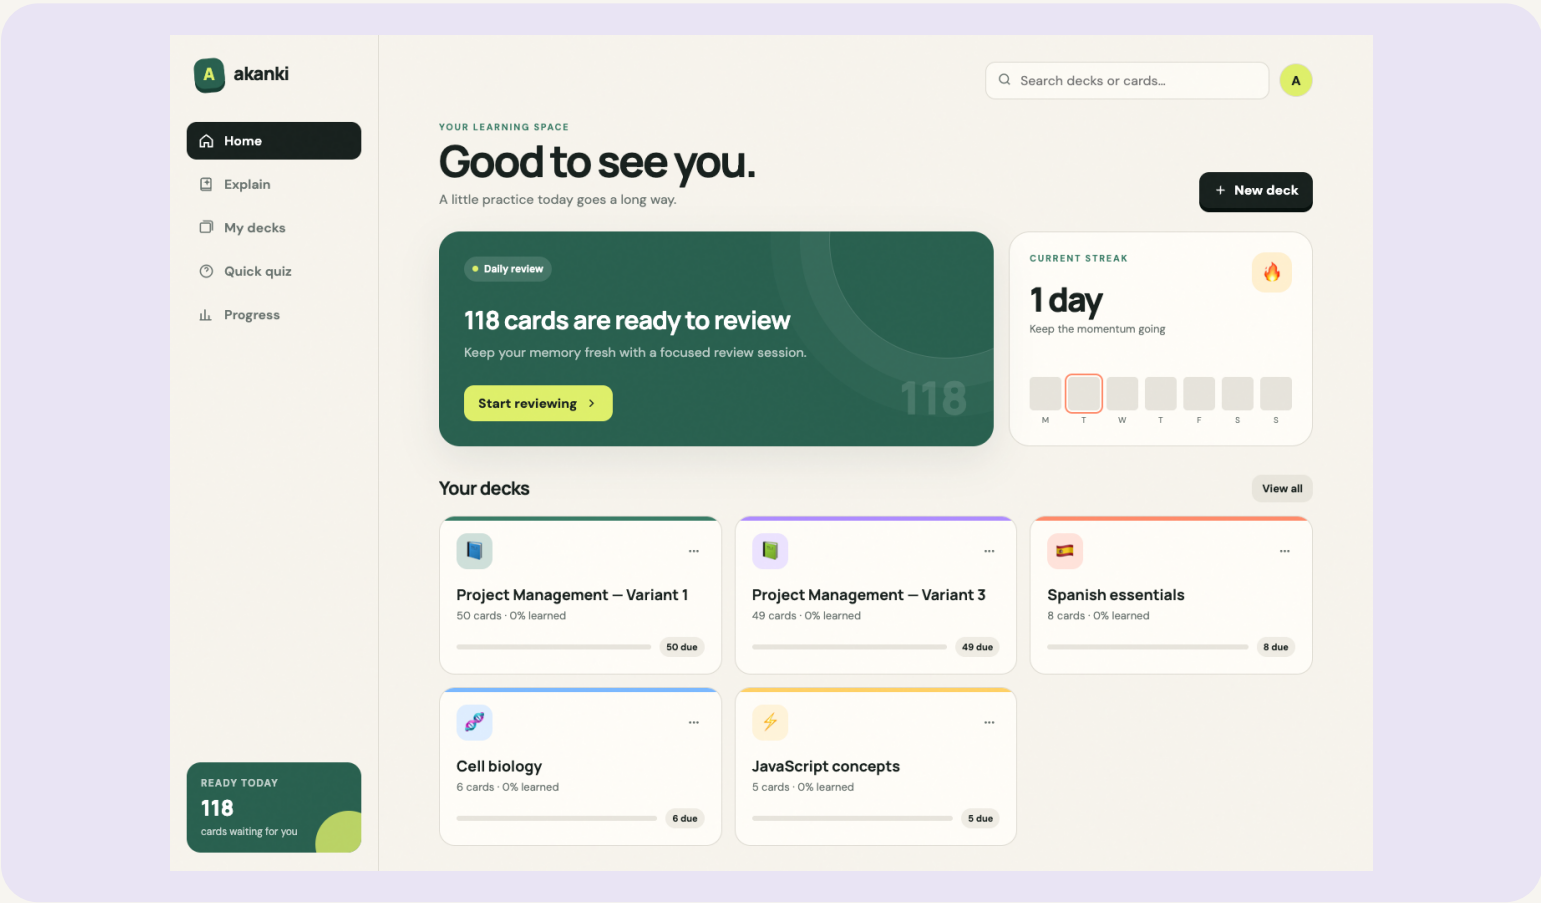

Product design and frontend development

Flexible study input

Cards, scenario questions and text imports become searchable decks and quizzes.

Private by default

Decks and progress stay in the browser; PDF extraction does not upload study files.

SYSTEM / SCOPE

JavaScript / localStorage / Spaced repetition / PDF.js / File imports

Independent browser app with four-rating review, multiple-choice quizzes and lecture-learning guides.

JORYQ Travel

*Explore the route.
Feel the journey.*

A Kazakh/Russian travel experience that connects destination discovery, tour comparison and immersive stories.

MY ROLE

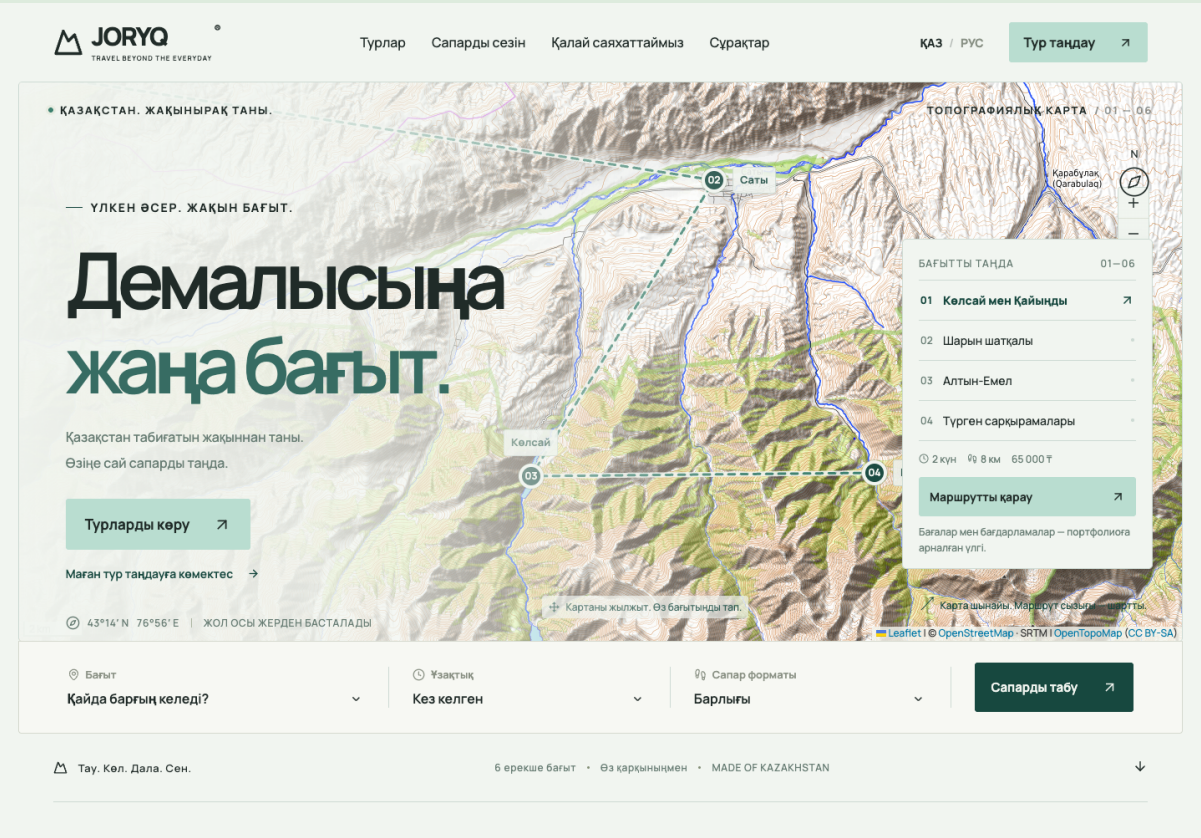

Product design, interaction design and frontend development

Make choices tangible

Six tour pages combine route maps, day-by-day programmes and two-tour comparison.

Build a sense of place

Day/night landscapes, optional ambience and a local travel passport extend discovery.

SYSTEM / SCOPE

React / TypeScript / Vite / Leaflet / Bilingual data / PNG export

Portfolio demo with illustrative tours and prices. Enquiries do not create real bookings.

[Open project /](#)

MammaMia! Studio

*A little sunshine.
A clear next step.*

A bilingual concept for an Almaty photo studio, pottery workshop and painting space.

MY ROLE

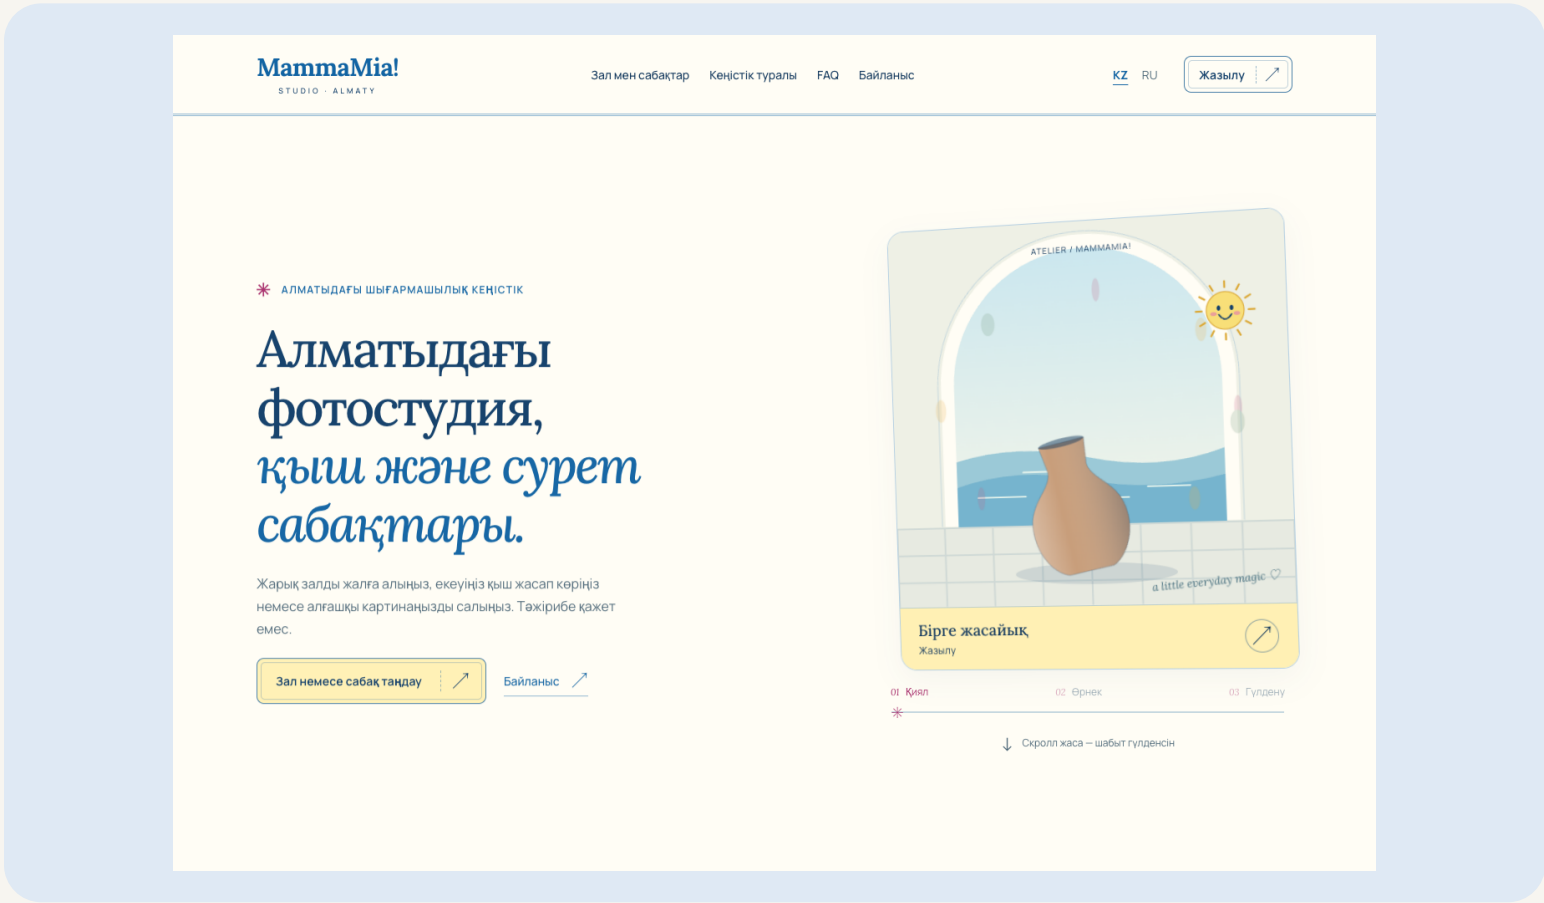

Art direction, UX/UI, motion and frontend development

Atmosphere with purpose

An Aegean-inspired identity and illustrated pottery animation introduce the studio.

Guide the enquiry

Service pages connect to a validated form with schedule rules and price calculation.

SYSTEM / SCOPE

React / TypeScript / SVG motion / Pricing logic / WhatsApp handoff

Fictional studio demo with illustrative services, prices and schedules; no live booking backend.

Open project /

BAGYT Academy

*Choose your
next direction.*

A Kazakh/Russian course-discovery concept for learners comparing language and creative programmes.

MY ROLE

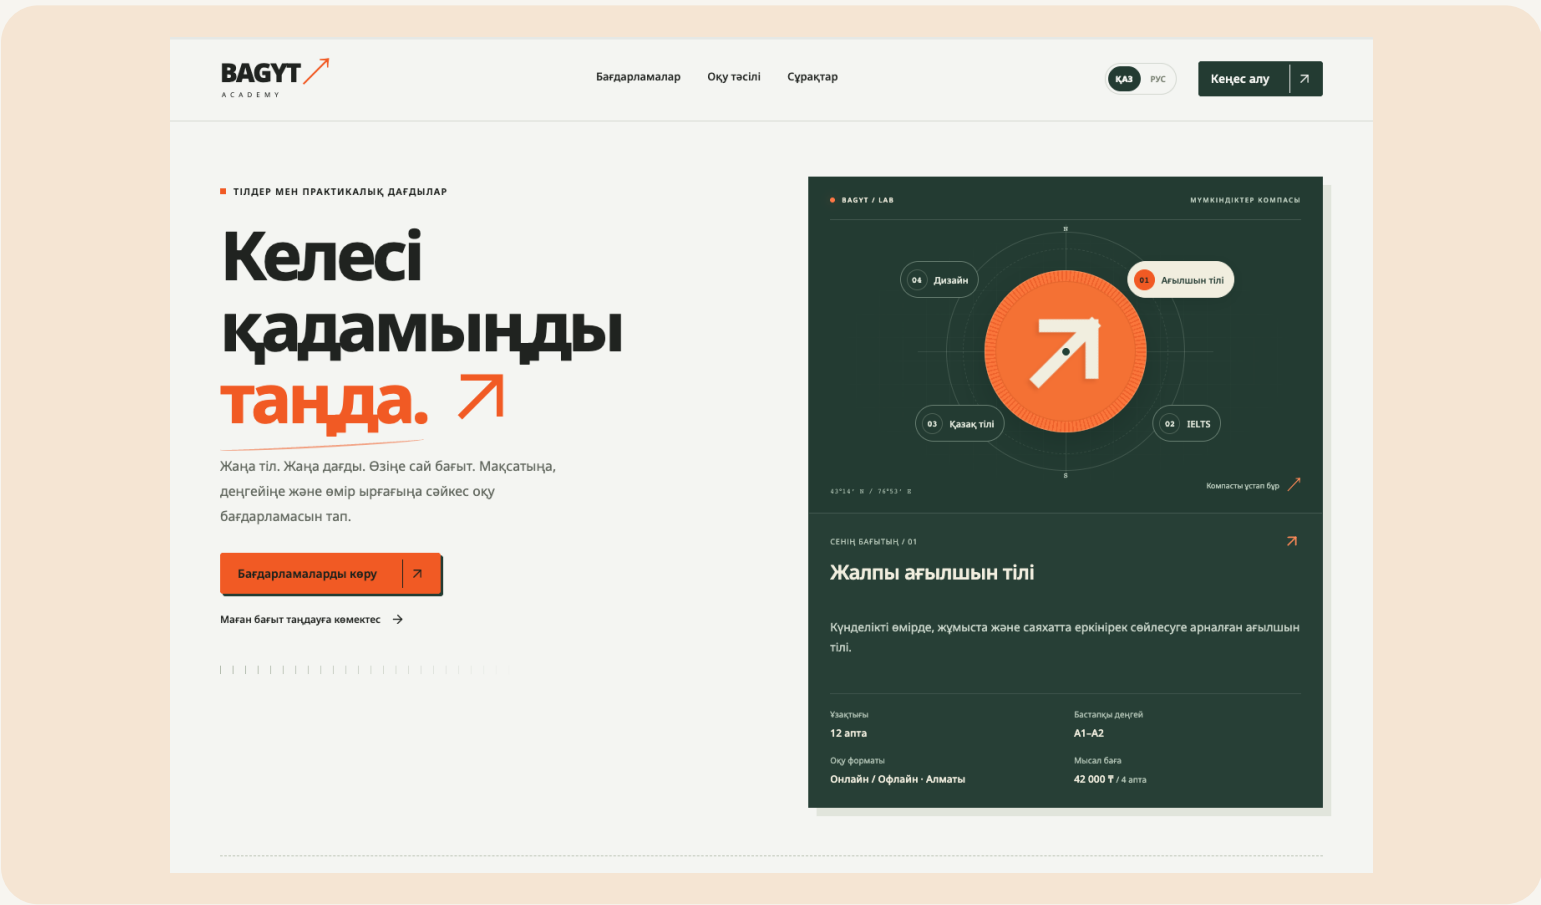

Product design, interaction design and frontend development

Start with a direction

An interactive compass and course filters make exploration approachable.

Compare before choosing

Two-course comparison and a three-question finder help narrow the options.

SYSTEM / SCOPE

React / TypeScript / React Router / Bilingual data / Accessible dialogs

Fictional academy demo. Courses and fees are illustrative; consultation forms do not send requests.

DOS Optics

From frame discovery to a salon visit.

A multilingual retail concept connecting eyewear discovery, a 3D catalog and vision-check booking.

MY ROLE

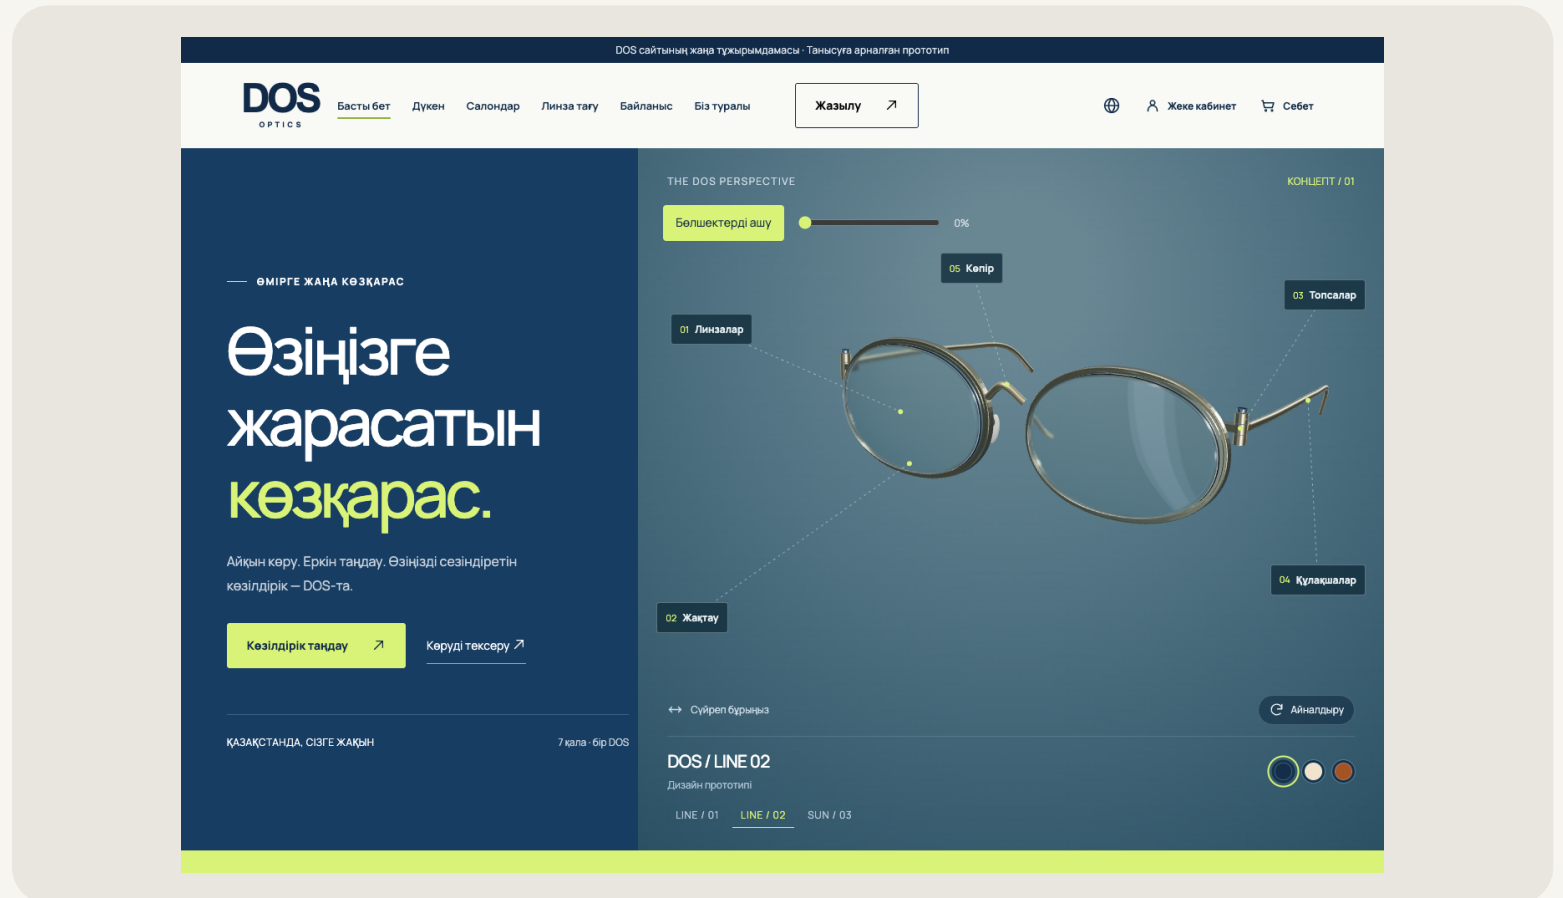

Product strategy, art direction, UX/UI and frontend development

Connect digital and physical

Frame discovery leads into a seven-city salon directory and appointment flow.

Design Kazakh-first

Catalog, product details, account and cart states work across three interface languages.

SYSTEM / SCOPE

Responsive frontend / Localization / Catalog / Salon directory / Booking

DOS Optics declined the proposal. Retained as an independent portfolio concept; not commissioned or official.

[Open project /](#)

AIELTS

Practice with feedback you can understand.

A bilingual IELTS practice prototype combining speaking, writing and structured AI feedback for Kazakh-speaking learners.

MY ROLE

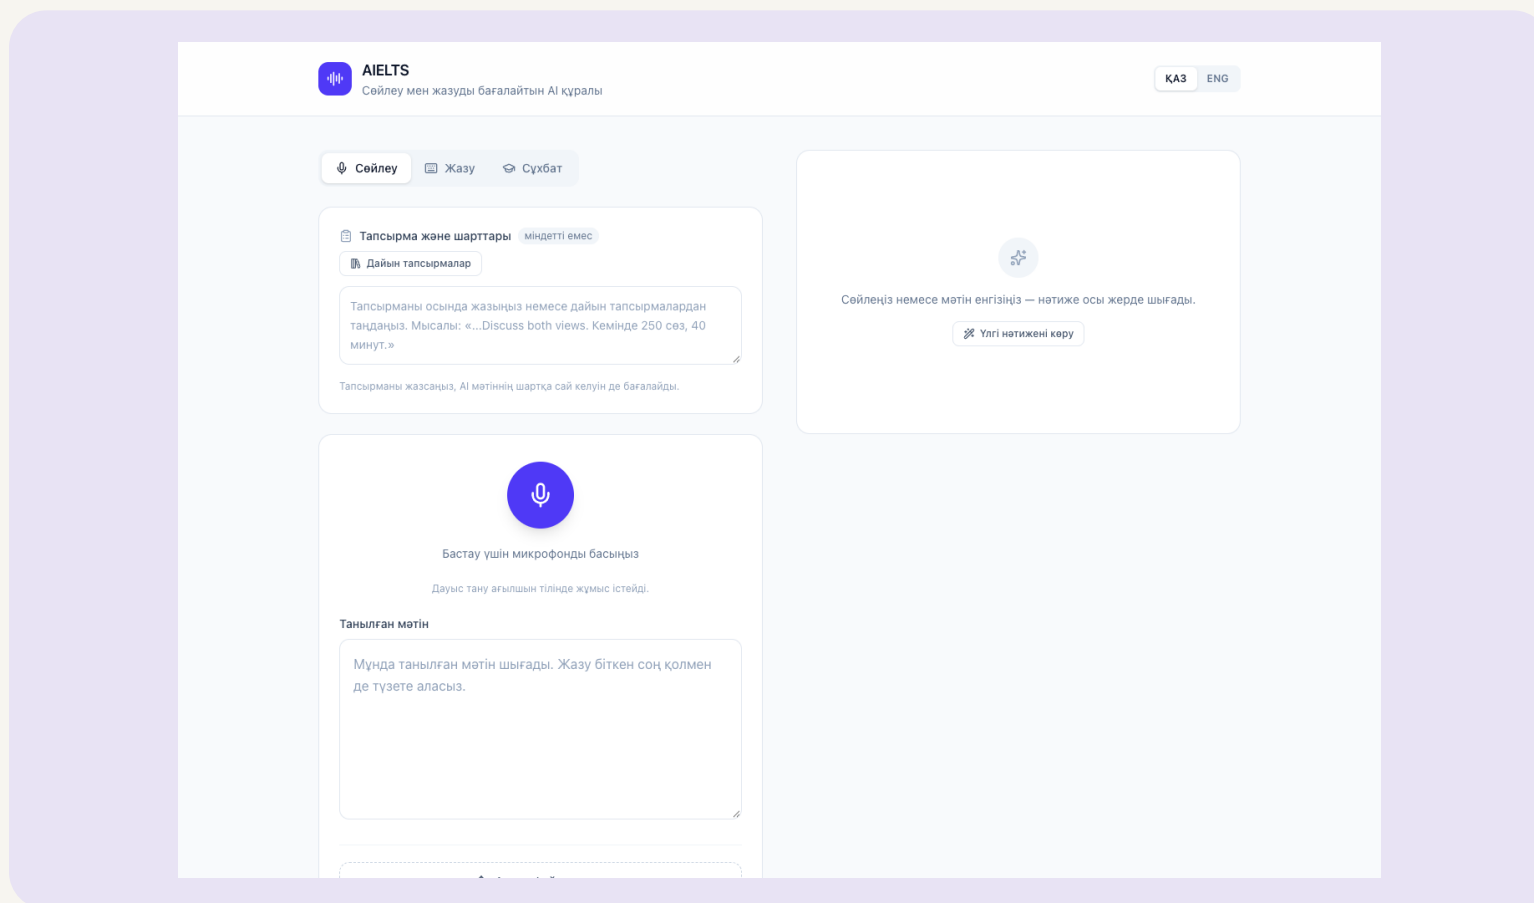

Product design, AI integration and frontend development

Structure the feedback

Results separate vocabulary, grammar, fluency and task response into readable criteria.

Communicate limits

Estimated practice bands are presented as guidance, with explicit assessment limitations.

SYSTEM / SCOPE

Speech and text / Transcription / Bilingual AI feedback / Study modes

Experimental prototype. Feedback has not been independently validated as official IELTS scoring.

[Open project /](#)

Design it well.

Build it to work.

Product-minded designer and developer building multilingual learning, productivity and service experiences.

MORE EXPLORATIONS
